REGISTERED AUGUST 27, 1912.

IRVIN OGDEN, SR.
EDITOR AND PUBLISHERSubscription \$1.50 Per Year
Entered as second-class matter at the
postoffice in Roy, New Mexico.

It is gratifying to note that the Associated Press has been forced by Henry Ford's private News Bureau, to report the Ford Libel Suit progress as a matter of news, however badly garbled, sneeringly presented and misstated it may be. Their policy of withholding the news of this million dollar libel case was, doubtless prompted by the desire to escape advertising Fords, free as has been their experience in the past. All the Ford jokes, the Peace ship and all the other smart stuff published by the A. P. in the past has only resulted in helping to multiply Henry's millions.

The S-A. has accepted an offer of a column of news of the Ford Million Dollar libel suit against the Chicago Tribune and most of the right minded local press all over the U. S. will do the same and the rantings of the dailies supplied by the A. P. will have its chance against the truth published to a discriminating people in the country newspapers.

The Gasoline Graft has been knocked out again by the Federal Court at St. Paul, Minn. where the case was taken from Santa Fe, and now it will get its third and final blow at Washington where it was taken on appeal. It has cost the State heavily in attorneys fees and Court costs to try to put this deal across and the Political Pets who were to receive fat salaries and unlimited expense money out of the graft on gasoline are still in the air with a prospect of not getting the plums. It is well. Since we have politicians who are unscrupulous enough to attempt such things there is hope when a Federal Court can suppress their greed.

This case confirms us in the belief that all Courts should be Federal and the District Courts should be abolished. So many provincial, political and personal prejudices have been allowed to influence District Courts that one who loves justice and fairness can but abhor the persecutions, favoritism, injustice and politics evident to any observer in the administration of Justice in some Districts.

A Federal Court where no Judge was dependent on political favor for his office, where he had no personal or political friendships or enmities and where his tenure of office depended on his merits alone would end many abuses of the machinery of justice.

Add to this the abolition of Juries, which, despite all the laws intended to keep them clean are but political tools in many cases, and in most cases place the responsibility for the administering of Justice in incompetent hands and relieve those who are actually responsible for injustice from apparent responsibility, and we will have made a long stride in the way of advancement.

Our present Courts are not up with the progress and spirit of the times and will be a drag on civilization until they are modernized and renovated.

ments.

"Dad," inquired a small boy, "what is a test case?" "A test case, my son," replied his parent, "is a case brought into court to decide whether there's enough in it to justify lawyers in working up more cases of a similar kind!"

Fresh Milk Cows for Sale, in-
quire of— O. A. Butler
Route 1 Roy, N. M. w3pd

Rye Seed for Sale,

E. M. Dukeminier, 3 miles north of Mofax Church, Mills, N. M.

Costa Rica is unique among modern nations, inasmuch as it has more teachers than soldiers. The standing army is only 500 strong, while the teachers in active service number about 2,000. For nearly 45 years the country has enjoyed internal peace.

Seed Rye

Those desiring to purchase
Seed Rye will please leave their
orders with the undersigned.
Can make delivery August 1st.
\$1.50 per bushel cash.

J. Floersheim

Needed Prompting.

Mr. Jobling was asked by his wife to call at a shop on his way home and get her three articles of feminine wear. When she reached the shop he had forgotten what they were, so he said apologetically to the attendant behind the counter: "Excuse me, my wife told me to come here and get her some things to wear, and I've forgotten what they are! Would you mind naming a few things?"

was of more than one sheet of paper, and double the rate when the letter distance the letter had to be carried. The rates were high, 6%, 12%, 18%, 25% and 37% cents, according to the not amount to the letters at each office. back and the average week's mail did not amount to the letters at each office. The rates were high, 6%, 12%, 18%, 25% and 37% cents, according to the not amount to the letters at each office. The rates were high, 6%, 12%, 18%, 25% and 37% cents, according to the not amount to the letters at each office.

MOST WORK IN THE LEAST TIME

THAT IS the enviable reputation that the Case line of steel built threshers have built up during the past 77 years. Case threshers not only do the work quickly, but they do it well. A clean job with least waste. They are real grain savers, and require less attention and repairs than ordinary threshers.

There are four sizes of the above type (20-bar cylinder) Case machines:— 28x50, 32x54, 36x58 and 40x62. Besides these we also build three smaller sizes, as follows:— 20x28, 20x36 and 26x46.

We picture here a 32x54. It is a favorite with men who have large farms, or who do custom threshing. It has big capacity, is easy running, very accessible and is built to stand many years of heavy work.

Let us show you wherein Case threshers are better.

Ancient Union.

The Cutlers' company of Sheffield, England, was incorporated by act of parliament in 1624 and invested with powers "for the good order and government of makers of knives, scissors, shears, sickles and other cutlery wares."

Attention

WHEAT

Growers

From all information we can now obtain, it appears that we should be able to handle your wheat as fast as offered to us. However, conditions may change suddenly, and it is advisable to inquire of dealers from time to time as to shipping conditions and if you have no storage room, delay threshing if the wheat cannot be moved promptly.

In our elevator we will be able to handle only the No. 2 and No. 3 grades of wheat. The lower grades we will be compelled to load directly into the cars.

All wheat will be graded strictly according to Food Administration regulations. A car load of wheat takes the grade of the lowest quality in that particular car. If you have any smutty or wet wheat, or any damaged wheat on the top or bottom of stacks, by all means keep it separate from your good wheat.

Floersheim Mercantile
Company

Fast Swimmer.
The fastest fish is said to be the dolphin, which can swim short distances at the rate of 25 miles an hour.

Dangerous Natural Gas.
One of the disadvantages of natural gas localities is that the filtered gas has practically no odor and leakages are, therefore, undetected. Gas has been discovered to be nearly always present in buildings fronting on asphalted streets.

Almost a Panacea.
Apples are useful in nervous dyspepsia, they are nutritious, medicinal, and vitalizing, they aid digestion, clear the voice, correct the acidity of the stomach, are valuable in rheumatism, insomnia and liver troubles.
